

[Technical Reader]

Type of performance : Contemporary dance solo and aerial acrobatics on U-Rope (Cloud swing)
Number of people : 1 artist
 + 1 or 2 technicians
 + 2 members to be supplied by the organisation to set-up and take-down the set.

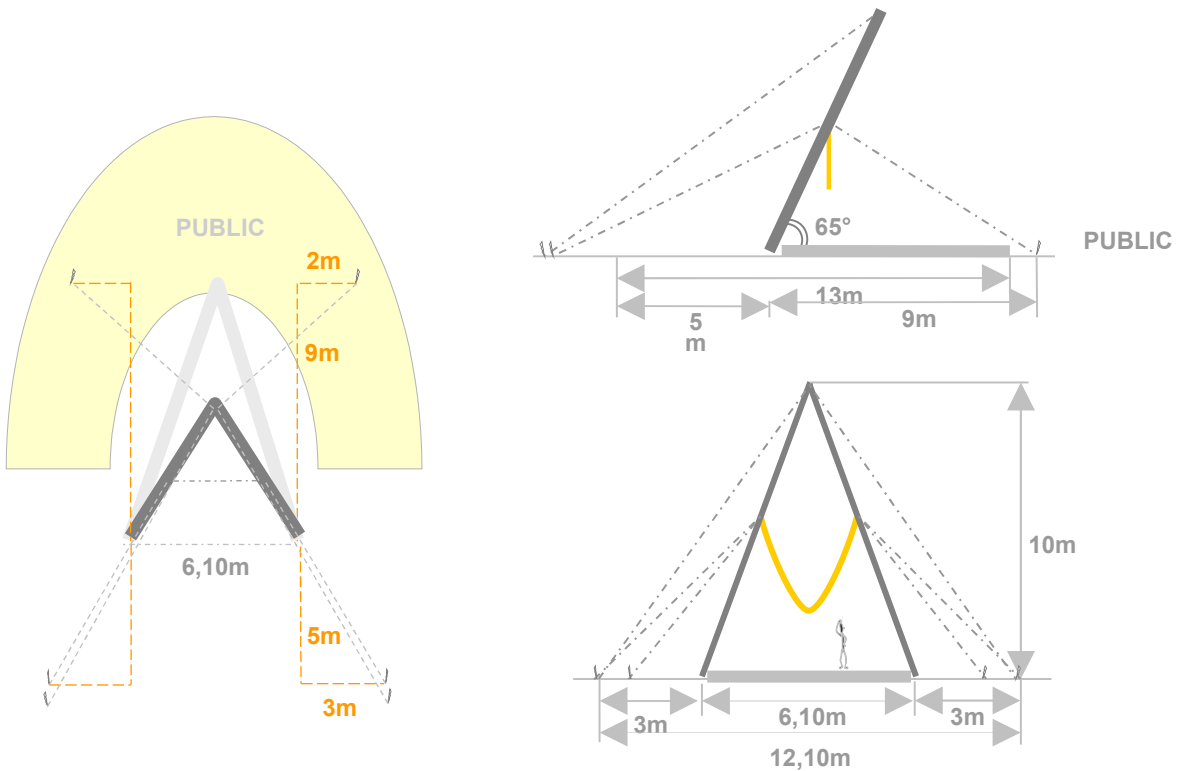

Duration of the show : 35 minutes.

Set-up/take-down time : 3 to 5 hours (depending on the site)

Performance area :
 Floor Space: Wide 6m / Deep 8m
 Aerial Rig: Height 9,50m / Spread 6m

Performing space :

- 13 X 13m on flat and level surface without holes.
- the aerial rig is anchored by 8 tent pegs of 1,20m maximum in length.
 (It is the organisation's responsibility to make sure that water and electricity pipes underneath the performance area are not at risk) when anchoring without tent pegs the organisation has to deliver 4 blocks of concrete of 1200 kg each as counterweights.
- the performance should be played in a quiet and harmonious place.
- streetlamps and luminous signage should be turned off to keep the right ambience of the lighting design.

[To be arranged by the organiser]

Sound system :

- electricity 1X 16A
- system of 2Kw (2 speakers on stand + 1sub + amplifier)
- 1 Eq. 2X31b
- 1 mixing analogic desk
