

BABY SHOES

MAKE ONE
IN REVERSE

STEP 1

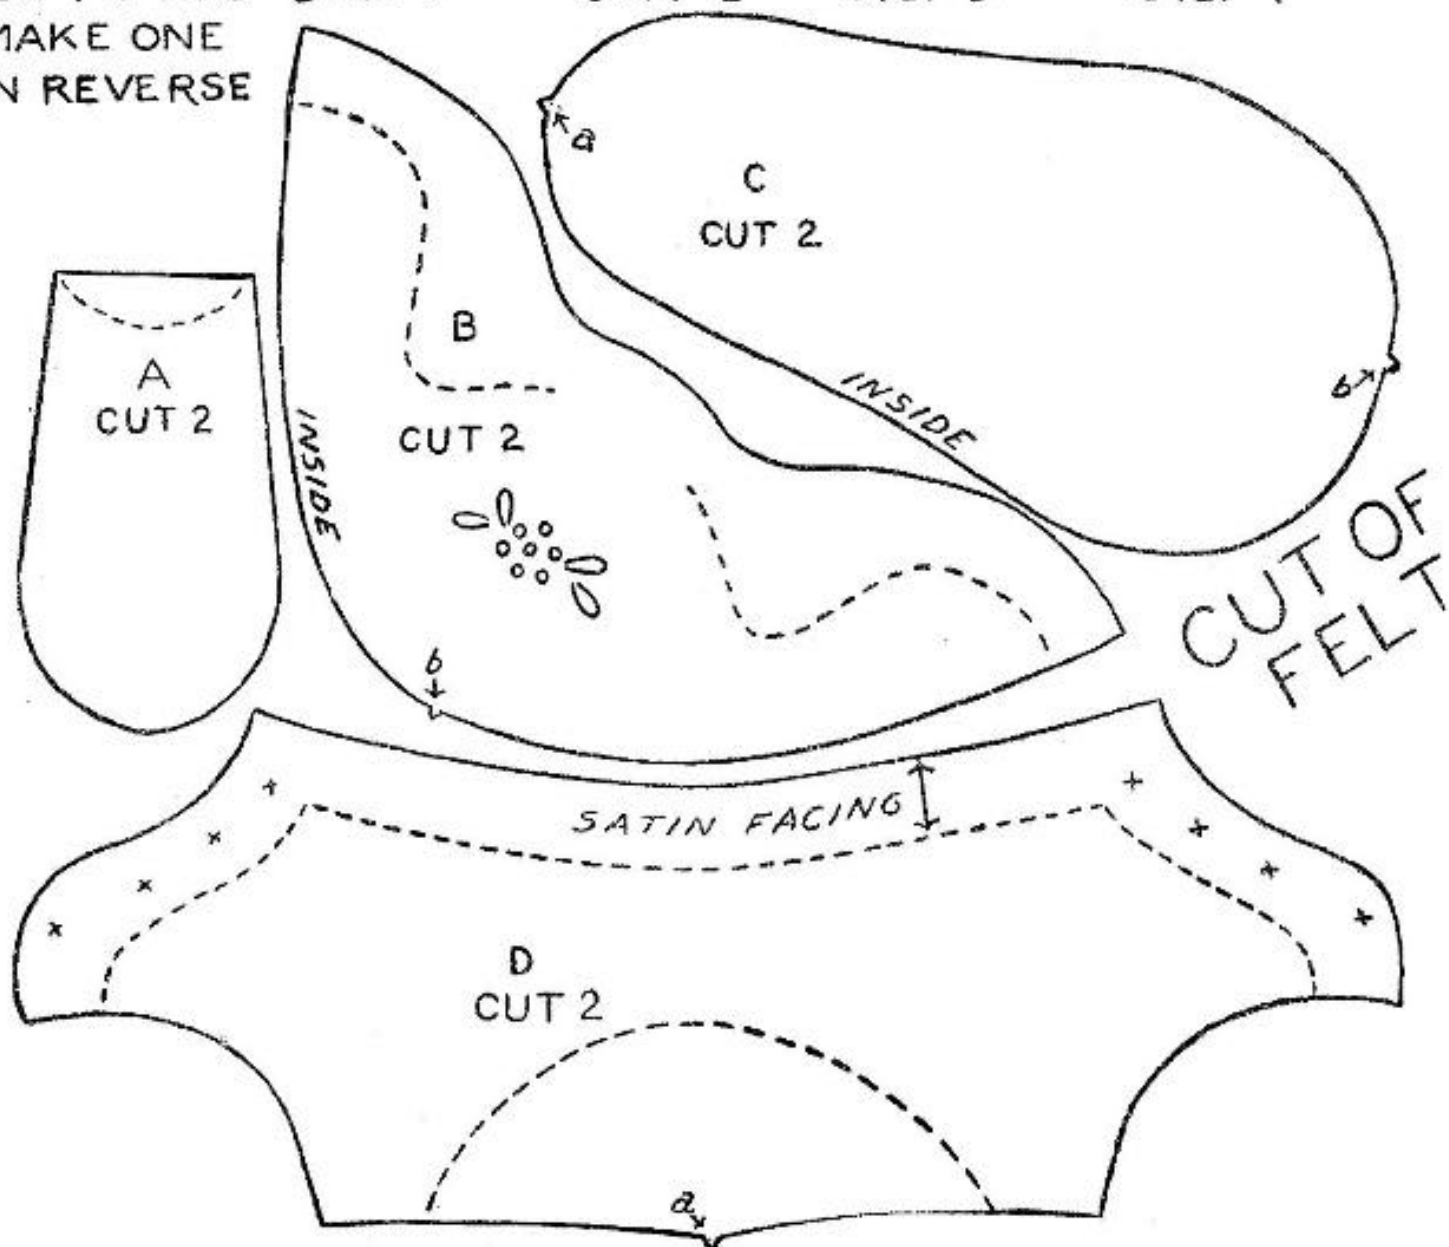

STEP 2

STEP 3

STEP 4

TO MAKE BABY SHOES:

A strip of felt; light blue, pink or white (even light tints of yellow and green are suitable) cut 6 x 14-inches will make one pair.

Cut 2 of each piece, reversing B and C for opposite shoe.

Face C across top and down front with felt or satin to line.

Punch small holes as indicated and use a buttonhole stitch with matching floss to finish them.

Embroider French knot motif on B pieces in pink with green lazy daisy leaves, or other desired colors.

A half circle of felt may be used to reinforce heels if desired.

Using four strands of matching embroidery floss, stitch the pieces together with small, even, straight stitches. Match notches--a to a and b to b.

Then sew A to B (step 1), B to C (step 2), D to BC (step 3); lace shoes with baby ribbon. Trim off notches.

Pattern may be reduced or enlarged to make doll shoes or shoes for a larger baby.
